And of those Comparits which are caused by an impaire weakened ar unhealthy condition of the Weskened or unhealthy condition of the NERVOUS SYSTEM. GENERAL DEBILITY. Strengthening the weakened body, giving tone to the various organs and invigorating the entire system. Also in FITS CRAMP, PARALYSIS and FALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TRE, MORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER GOMPLAINT, SYNAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KID. A Dermangement of the Nervous System.

A Derangement of the Nervous System.

103 In NERVOUS COMPLAINTS, Druge and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength staticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure disease by one ward application, in place of the usual mode of drugging and phaseking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slighteen sigury under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 Persons including all ages, classes and conditions, among which week a large number of ladies, who are peculiarly subject to For-ous Camplaints, have been when all bope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civiliration, DYSPEPSIA, or any other Chronic or Nervous Disorder. Is ordinary cases, stimulants are taken, which, by their action case the nerves and muscles of the stomach, afford temperary retief, but which leave the pattent in a Jower state, and with be jured faculties, after the action thus excited has ceased. New compare this with the effect resulting from the application of the GALVANIC BELT—ake a Dyspeptic sufferer, evan is the worse symptoms of an attack, and simply tie the Bell around the body; using the Magnetic Fluid as directed has abort period the insensible perspiration will act on the positive elemant of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic directation throughout the system. Thus the meat severe cases of DYSPETSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADICATE THE DISEASE OF YEARS.

For about exempy years I had been suffering from Dysperin. Every year the symptoms become worse, nor nould I obtain permanent relief from any course of medical resultments whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rhenmatism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '45, in consequence of presching a great deal in my own and various other churches in this region, I was attacked by the Bronchits, which soon became so severe as to require no immediate suspension of my pastoral labors. My nervous system were saw thereughly prestrated, and as my Bronchits became worse, so also did my Dyspepsis and Rhoumatic affection—thus evincing that these disorders were connected with each other Evough the medium of the Nervous system. In the whole pharmacoposis there seemed to be no remedial agent which could reach and recomperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with nevery sanguine hopes of their ediciency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1848. To MY GREET ANTONES VANIG BELLT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1845.
